

Journal of the Meteorological Society of Japan

- The Journal of the Meteorological Society of Japan (JMSJ) is a medium for the publication of research papers in the comprehensive areas of meteorology that cover observations, modeling, assimilations, analyses, global and regional climate research, satellite remote sensing, chemistry and transport, and dynamic meteorology including geophysical fluid dynamics. In particular, JMSJ has recently been publishing more papers related to Asian monsoons, climate and mesoscale models, and numerical weather forecasts.

- JMSJ is a bimonthly journal which publishes articles, notes and correspondence, and invited review articles by both members and nonmembers of the Meteorological Society of Japan.
- Page charges: A minimum of 4,000 yen (~\$40) per printed page, and an additional charge of 21,000 yen per printed page with color. For further details, see the Guide for Authors <http://www.metsoc.or.jp/JMSJ/AuthorsGuide.pdf>
- Quick review process and early publication
 - Publication within 4 months after the final acceptance decision
 - For notes, review process completed within 4 months

JMSJ, Since 1882

visit <https://www.jstage.jst.go.jp/browse/jmsj>
to submit papers and browse archives (free access!)

- JMSJ has been issued since 1882. JMSJ has been printed entirely in English since 2001 and publishes many papers from overseas; this gives it a reputation as an international journal.
 - All issues of JMSJ can be accessed without charge. These publications are available at <https://www.jstage.jst.go.jp/browse/jmsj>.
 - Impact factor: 1.233 (2011), 1.955 (5 years)
- Those who wish to contribute papers to or subscribe to JMSJ may be either members or nonmembers of the Meteorological Society of Japan. Application forms for the membership and other information can be found at <http://www.metsoc.or.jp/index-e.html>.

JMSJ Editorial Committee:

Chief Editor: Masaki Satoh (The University of Tokyo)

Co-Chief Editor: Tetsuya Takemi (Kyoto University)

Editors: Takeshi Enomoto, Masatomo Fujiwara, Meiji Honda, Takeshi Horinouchi, Masaru Inatsu, Teruyuki Kato, Masayuki Kawashima, Yasu-Masa Kodama, Makoto Kuji, Hirohiko Masunaga, Takemasa Miyoshi, Qoosaku Moteki, Atsushi Obata, Shoichi Shige, Kengo Sudo, Seiji Sugata, Nobuyuki Takegawa, Youichi Tanimoto, Kenichi Ueno, Yuqing Wang, Masahiro Watanabe, Hiroyuki Yamada, Seiji Yukimoto

Recent Special Issues and Editions:

Vol. 89A (2011): Special Issue on MAHASRI - Monsoon Asian Hydro-Atmosphere Scientific Research and Prediction Initiative -; Chief Editor: Jun Matsumoto

Vol. 90A (2012): Special Issue on Recent Development on Climate Models and Future Climate Projections; Chief Editor: Tomoaki Ose

Vol. 90B (2012): Special Issue on Downscaling Studies for the Impact Assessments of Climate Change; Chief Editor: Izuru Takayabu

Vol. 90C (2012): Special Issue on Japan-China Meteorological Disaster Reduction Corporation Research Center Project (JICA/Tibet Project); Chief Editor: Toshio Koike

Vol. 91A (2013): Special Issue on Aqua-Planet Experiment Project (APE) and Related Studies; Co-Chief Editors: Yoshi-Yuki Hayashi, Mike Blackburn, and David Williamson

Vol. 90, No. 5 (2012): Special Edition on Mesoscale Convective Systems in East Asia; Co-Chief Editors: Hiroshi Uyeda and Masanori Yoshizaki
